CONCRESS OF FARMERS.

The Twenty-Second Annual Session Opens in Macon, Georgia.

Fifteen Hundred Delegates in Attendance-Prest. Flanders Makes An Interesting Address.

Macon, Ga., Oct. 7 .- The twenty-second annual session of the Farmers' national congress was opened in this city today with an estimated attendance of 1,500 delegates, representing every state in the Union. The meeting was called to order by President George L. Flanders, who delivered his annual address. He said in part:

"The granaries of the world are being filled until today we are confronted with the fact that in the United States five and two-thirds million farms are producing one and one-half billion dollars' worth of agricultural products, a sum said to be much in excess of the total income of the farmers at any other time in their history in this country. This year we are raising in the United States as much corn as was raised in the world last year. The education that has been going on in the interest of the agriculturist during the last 30 years has produced wonderful results, but all, or nearly so, are upon one side of this two-sided question, viz.: upon the side of production without touching the question of distribution, or the question of the relation of the agriculturist to the government or governments under which he lives, and by virtue of which he is pro-

is not true of the agricultural population, and yet that population is ten twenty-ninths of the entire number engaged in the industrial pursuits of this country. The scope of our educational work should now be such that it will extend to this class of our population. The theories and fundamental principles of constitutional law should be taught alongside the fundamental principles underlying the production of ag-ricultural products. Those principles are stable, undergoing few changes, Every agricultural citizen should un derstand that the government of the United States under which he lives is government of derived powers, that it has no powers except those that have been conferred upon it and that the conferring was done by the sovereign states of the Union and that the matter conferred is enumerated in that document known as the Constitution of the inited States and that when he desires the national government to do any thing in his interest, he must first know whether the power to do that thing has been given that government in that instrument. If the power has been con ferred, then it is plausible and feasible o petition the Congress of the United States to do the thing desired.

believe that no better work can now be taken up along educational lines in addition to the work already being ione than to put the agricultural pop such knowledge relative to the gov ernment and its workings as will qual or equip each and everyone to at any time step into the legislative halls of any state in the Union or the Con-gress of the United States and explain with intelligence upon the questions that wil be placed before them."

Claim Against Daly's Estate.

New York, Oct. 8 .- A claim of \$50,000 made against the estate of the late Marcus Daly, the copper magnate, by the Confederate Memorial association, has been compromised. The heirs of the millionaire have agreed to give the millionaire have agreed and give \$20,000 in settlement of claims and give \$20,000 in settlement of claims and the suit has been discontinued. Mr. Daly, in October, 1899, subscribed \$50,000 to the Confederate Memorial association for the purpose of erecting a building in memory of Confederate soldiers. At the time of his death the sum promised remained unpaid. The execu-tors refused payment and suit was

brought in the supreme court.

Murder or Suicide? New York,Oct. 8 .- It has been learned that the ropes which were found tied about the feet of an unknown man found dead in the North river at Jersey City were not placed there by a murderer, but by men on a tug who tried to draw the body from the river. Although the man has not been identi-fied, it appears probable that he com-

NO RESUMPTION OF COAL MINING

The Buffalo Conference Brought No Results.

SOME GROUND FOR HOPE.

ommunication With Operators by Long Distance Telephone Established.

Buffalo, N. Y., Oct. 7 .- The confer nce between the committee appointed y the National Association of Manufacturers and Prest, Mitchell and his leutenants, held at the Iroquois hote this afternoon, did not result in any lefinite plan being agreed upon for the partial resumption of work in the an bracite coal fields, but the members of he manufacturers' committee said that they were greatly pleased with the progress made. The fact that communiation was established with the opertors by long distance telephone and an appointment made to meet a committee representing them in Philadelphia omorrow is looked upon as significant, as it had been announced by members of the manufacturers' committee that there existed no understanding with the operators prior to today's meeting and that no step in that direction would be taken until the negotiations with Prest. Mitchell reached a stage where such a neeting would promise results.

Mr. Mitchell this afternoon positively aeclined to discuss the request made by Prest. Roosevelt that Mitchell use his influence to induce the miners to sume work with a promise of the ap pointment of a committee to investigate the miners' grievances. It was learned from a reliable source, how-ever, that Mr. Mitchell does not regard the proposition favorably, and that he will decline to ask the miners to resume work under the conditions stipu-The following gentlemen repre rented the manufacturers: David M. Parry, president of the Manufacturers' association, Indianapolis; George H. Barbour, Detroit; Richard Young, New York; Frank Leake, Philadelphia, and John Maxwell, Indianapolis. The miners were represented by Prest Mitchell, Secy.-Treasurer Wilson

and District Presidents Nichols, Duffy and Fahey. The conference was held behind closed doors and only a brief statement was given out at the end of the meet-

ing. .The statement is as follows: "The committee of the National As sociation of Manufacturers has listened to the explanation of the strike difficalty as offered by a special committee of the Untied Mine Workers, at the head of which was John Mitchell. The National Association of Manufacturers' committee has learned what it could the conditions and now goes Philadelphia for the purpose of meeting a committee of mine operators with idea of getting their side of the difficulty. The National Association of Manufacturers' committee carries no proposition from the Mine Workers and has no other mission than the desire speedily bring about a settlement of this dispute.

GEORGE H. BARBOUR, Detroit. "DAVID M. PARRY, President

COLORED REPUBLICANS.

Representatives of Negroes Call Upon President Regarding Their Relation to Party.

He Heartly Disapproves of Efforts to Exclude Those of the South From Politics.

Washington, Oct. 6.-Bishop Alexander Walters of New Jersey, Bishop G. W. Clinton of North Carolina, and Rev. L. L. Caruthers of New York, representing the executive committee of the Free American council, called upon President Roosevelt today to ascertain his attitude toward the movement certain Republicans of the south are making to exclude the negroes from participation in the councils of the party. They were especially solicitous of ascertaining whether the president indorsed the action of the Republicans in North Carolina and Alabama with this end in view. They were presented to the president by Gen. James Clarkson, surveyor of the port of New York.

After the interview the colored men expressed themselves as highly gratified with what the president had said to them. They announced that the president had stated to them that his actions in all matters affecting the race was his answer as to his attitude to ward the colored man; that in appoint ments, the character, intelligence and the esteem in which the applicant was held in the community in which he lived would be the first considerations and that no man would be excluded or appointed because of his color. That he heartily disapproved of the efforts of

WANDERERS Travel Thousands of Miles and Find It at Home, We go about from one place to an-

oter in search of something we desire, without success, and finally find it right at home awaiting us. A mining engineer out in Mansfield, Mo., tells of his

experience with coffee.

He says: "Up to the year 1898 I had always been accustomed to drinking coffee with my breakfast each morning." In the summer of that year I developed a severe case of nervous prostration and I took several courses of treatment for it in Toronto, Buffalo and New York City without obtaining any permanent benefit.

"One of the most trying manifestations of the malady was a condition of nervous excitement in which I found myself every day during the forenoon. It never occurred to me to attribute this to coffee until I read an advertise. ment of yours last fall describing case similar to my own which had received benefit from the use of Postum Cereal Food Coffee. I at once changed my breakfast beverage from Java and Mocha to Postum and the effect was nothing short of marvelous. After using it less than a week I was free from morning attacks and in six months all my nervous symptoms had disappeared.
"I have demonstrated the fact that by following your directions in making Postum Food Coffee any one can obtain as rich a cup of coffee from Postum as from any of the imported brands, and may rest assured that they will escape the injurious effects of coffee and experience much benefit from the use of Postum." Name given by Postum Co., Battle Creek, Mich.

A Remedy Which Has Revolutionized The Treatment of Stomach Troubles.

The remedy is not heralded as a wonerful discovery nor yet a secret patent edicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles with which nine

out of ten suffer.
The remedy is in the form of pleasant asting tablets or lozenges, containing regetable and fruit essences, pure aseptic pepsin (government test,) gold-en seal and diastase. The tablets are sold by druggists under the name of Stuart's Dyspepsia Tablets. Many interesting experiments to test the diges-tive power of Stuart's tablets show that one grain of the active principle contained in them is sufficient to thoroughly digest 3,000 grains of raw meat; eggs and other wholesome food Stuart's Tablets do not act upon the owels like after dinner pills and cheap athartics, which simply iritate and ndame the intestines without having any effect whatever in digesting food

or curing indigestion.

If the stomach can be rested and assisted in the work of digestion it will o organ is so much abused and over his is the secret, if there is any se

the remarkable success of Stu-Dyspepsia Tablets, a remedy tically unknown a few years agd now the most widely known of any atment for stomach weakness. This success has been secured entirely its merits as a digestive pure an le because there can be no stomach e if the food is promptly digested Stuart's Dyspepsia Tablets act entire on the food eaten, digesting it com ely, so that it can be assimilated blood, nerve and tissue. They cure pepsia, water brash, sour stomach and bloating after meals, becaus furnish the digestive power which k stomachs lack and unless tha k is supplied it is useless to attempt cure by the use of "tonics," "pills" catharties which have absolutely digestive power.
